Subject: TEK/Cultural Assessment, Bristol Bay
BRISTOL BAY cultural assessment narrative description1.docx
BRISTOL BAY WATERSHEDSCOPE.doc
Bristol Bay Cultural Assessment, Budget Proposal C.xlsx
BRISTOL BAY TEK QUESTIONS.4.1.11[1].doc

Dan,

Attached are four documents.

Two documents are in preparation for field interviews in the villages and are in draft form; these will be sent to the village councils as well as Park Service anthropologists and others for review. These are in draft form and we seek your comments before proceeding with the final versions. In addition we will compose a cover letter, a more formal description of our methodology, and a letter from the Kenaitze Indian Tribe formally introducing me to the villages following tribal protocol.

The first is a narrative of our TEK outline. The purpose of changing the I.A.1 style outline to a narrative is to better explain the project to tribal councils

Second is a draft of interview questions. These will probably be paired down and/or consolidated to fit into a 2 hour interview session. The interview questions have also been sent to Jenny Thompson (Thomas?) EPA economist for coordination with the economics team.

There are two other documents. One is a budget statement which has also been forwarded to Cat at Naturserve according to your instructions. Also you indicated we needed a scope of work and that is included and has been forwarded to Cat as well.

I hope you are feeling better. Thanks for all your work on this difficult project.

Alan
